

GRADUATING SENIORS: WANT TO WORK IN A PSYCH LAB?

Apply to the SEEDS Lab!

SElf-regulation, EArly Development, and SEttings Lab
Directed by: Dr. Christine Li-Grining

If you are interested in getting research experience after graduation, the SEEDS Lab may be right for you! We are looking for a new research coordinator to become a part of our team.

Chicago School Readiness Project

OUR RESEARCH: In the SEEDS Lab, we study the development of preschoolers and youth from low-income and racial/ethnic minority backgrounds. Work on our research projects has helped prepare many students for graduate school programs.

YOUR ROLE: The research coordinator will have the opportunity to help with data collection efforts, data analysis, papers, and grant proposals. You will also be a part of a larger team that includes other researchers from UIC and NYU.

WE ARE LOOKING FOR STUDENTS WHO...

- will have their undergraduate degree by the start of the position,
- have a GPA of 3.3 or greater,
- are available to work 15-20 hours every week for a year,
- although not a requirement, Spanish and Arabic speakers are strongly encouraged to apply,
- access to a car is a plus!

If you are interested in becoming a research coordinator in the SEEDS Lab, please email your resume and application to Zahra Naqi at znaqi@luc.edu.
